FOREWORD

The **Statistical Abstract** of Haryana provides the latest available data on various socio-economic aspects of the State every year. This key document is presented to the Hon'ble Members of the Haryana Vidhan Sabha along with other Budget documents.

This year, the **Statistical Abstract 2023-24**, has sought to include all relevant data in view of the changing socio-economic scenario. I hope that the information contained in this document will be of significant use for formulating future development plans, policies and for the administration. I am confident that the Parliamentarians, Legislators, Planners, Administrators, and various Research Organizations interested in studying the economy of the State, will particularly find this document useful. For its wider use and utility, it is also available in the public domain at www.esaharyana.gov.in

I appreciate the cooperation of all Government departments and their agencies extended to the Department of Economic and Statistical Affairs, Haryana for the preparation of this document.

PREFACE

Department of Economic and Statistical Affairs (Planning Department, Government of Haryana) is the Nodal Department for coordination of statistical activities, compilation and dissemination of data pertaining to key economic activities. Statistical Abstract of Haryana, published by the Department, provides district-wise time series statistics/indicators on various socio-economic aspects of the State. The current issue of the Abstract contains comprehensive statistics covering socio-economic aspects across economic sectors such as area & population, health & family welfare, education, labour & employment, social security & social welfare, co-operation, agriculture, horticulture, irrigation, livestock & animal husbandry, fisheries, forests, industries, electricity, transport, public distribution system, tourism, local bodies, banking, sports, apart from key macro economic indicators such as GSDP, Per Capita Income. This document will serve as a useful reference for statistical data requirements for planning, evidence based policy and decision making.

The ever increasing demand for the Statistical Abstract from Government departments, universities, research institutions and research scholars bears testimony to its utility for academics and practitioners of public policies alike. It is sincerely hoped that the modifications made in the present edition will further enhance its relevance.

STATE INCOME

The Gross State Value Added (GSVA) is defined as a measure in monetary terms of the volume of all goods and services produced within the geographical boundaries of the State, accounted without duplication during a given period of time. The Consumption of Fixed Capital (CFC) is deducted from GSVA to obtain Net State Value Added (NSVA). The entire economic activities have been classified into different sectors namely; agriculture, forestry & fishing, mining & quarrying, manufacturing, construction, electricity, gas, water supply & other utility services, trade, repairs, hotels & restaurants, transport, storage & communication, financial services, real estate, ownership of dwellings & professional services, public administration and other services for estimating the GSVA and NSVA of the State. The estimates of GSVA and NSVA are adjusted to product add taxes less subsidies to obtain Gross State Domestic Product (GSDP) and Net State Domestic Product (NSDP).

Per capita Income — The NSDP of a year divided by the population of that year gives per capita income. These estimates are subject to revision necessitated by the availability of data at the moment and change in methodology. The per capita income figures from 2011-12 to 2020-21 have been determined based on population data supplied by Registrar General of India. From 2021-22 onwards the calculations are based on population data provided by Ministry of Health & Family Welfare, Govt. of India.

Table 12.1—shows the Gross and Net State Domestic Product at current and constant (2011-12) prices.

Tables 12.2 and 12.3—show the sector-wise Gross State Value Added at current and constant (2011-12) prices.

Tables 12.4 to 12.5—show the sector-wise Net State Value Added at current and constant (2011-12) prices.

Table 12.6—shows the indices (2011-12=100) of Net State Domestic Product by broad sectors.

Table 12.7—depicts the percentage change in GSVA of Haryana and India by broad sectors at constant (2011-12) prices.

Table 12.8 to 12.9—show the per capita income of various states and the Indian Union at current and constant (2011-12) prices.

SECTION XIII**GROSS FIXED CAPITAL FORMATION IN HARYANA**

Gross fixed capital formation in Haryana consists of additions to the assets of producers of tangible reproducible goods which have an expected life time use of one year or more. The main objective of these estimates is to assess the pace of development brought out as a result of investment both in public and private sectors. These estimates also provide insight as to the quantum of expenditure that has been made for the creation of capital assets during the year. For estimating the gross fixed capital formation, the entire economic activities have been classified into thirteen sectors, viz. agriculture, forestry, fishing, mining and quarrying, registered manufacturing and un-registered manufacturing, construction, electricity, gas and water supply, transport, storage and communication, trade, hotels and restaurants, banking and insurance, real estate and ownership of dwellings (residential part only), public administration and other Services.

SECTION—XIV

AGRICULTURE

Agriculture statistics regarding classification of area and production of Principal crops and yield per hectare of major crops for the State as a whole and district-wise data have been presented in this section. It also contains data on land revenue assessment, area under high yielding varieties, area under fruits and vegetables, consumption of fertilizers, agricultural machinery and implements including tractors and consolidation operations, etc. The information has been collected from Deputy Commissioners, Director of Land Records and Director of Agriculture and Farmers Welfare, Haryana and the data relates to agricultural year (1st July to 30th June.)

Area according to village papers—it is based on the returns of area prepared by village staff for revenue purposes in the districts.

Area under Forests—this includes actually forested area on the lands classed or administered as forest under any legal enactment dealing with forests whether state owned or private. Besides, the forest area along roads, railways and canals has also been included. The area under forests given in this section will not tally with that of the Forest Department shown in section XVIII, owing to the fact that certain lands though not wooded are taken as forest by the Forest Department whereas these are not treated as such by the revenue authorities.

Land not available for cultivation—this includes absolutely barren and uncultivable land like mountains, deserts, etc. which cannot be brought under plough except at exorbitant cost, land covered by buildings, roads and railways and water or otherwise appropriated for non-agricultural purposes.

Other uncultivated land excluding fallow lands—This denotes land available for cultivation, either not taken up for cultivation or abandoned later on for one reason or the other and includes cultivable waste, permanent pastures and other grazing lands and lands under miscellaneous trees, crops and groves.

Fallow land—it denotes cultivable land which after abandonment remains uncultivated over a long period called 'old fallows' and those kept uncultivated during the current year are called 'current fallows'.

Net area sown—it is the net area sown under crops, the areas sown more than once during the year being counted only once.

Total Cropped area—it includes total area covered with crops during the year. In case, different crops are raised on the same land during the year, the same area is counted more than once.

SECTION—XIX

FORESTS

The area under Forests shown in this section will not tally with the figures shown under the section 'Agriculture' supplied by the Department of Land Records due to different definitions followed by the Department of Forest and Department of Land Records. The Department of Forest reckons entire area including non-wooded area under its control as the forest area, whereas the Department of Land Records compiles the area on the basis of actual area under forests.

SECTION—XXII

TRANSPORT STATISTICS

This section contains information relating to road transport, development of roads and railways. The information has been collected from the O/o Transport Commissioner, DIG Police (CID) Haryana and Public Works Department (Building and Roads) Haryana and Ministry of Surface Transport (Transport Research Division), Government of India and Northern Railway, New Delhi.

The railway system in India is divided into various zones which are further sub-divided into divisions. The divisions are not co-terminus with the State territories. On the re-organisation of the Punjab State, about 1,220 kilometres of rail length came to the share of Haryana State as against the total rail length of 3,312 kilometres in the erstwhile Punjab State. The railway administration prepares the railway statistics division-wise and not station-wise or section-wise. They have, therefore, shown their inability to supply the section-wise data on goods booked and number of passengers originating and earnings accruing there from section-wise. In this section, the data have, therefore, been presented for Delhi, Ambala and Ferozepur Divisions as a whole. This data will not thus provide a clear idea about the working of railways in Haryana.

Table 22.3—district-wise road accidents in the State.

Table 22.4—the district-wise number of professional and non-professional driving licences.

Table 22.5—depot-wise data relating to commercial wing of Haryana Roadways.

Table 22.6—metalled and un-metalled road length maintained by Public Works Department.

Table 22.7 and 22.8—furnish district-wise information by types of road length maintained by Public Works Department and Local Bodies.

Table 22.10—road length per 100 sq. km. of area and per lakh of population in India.

Table 22.11—route kilometres of the railways. (In calculating route kilometres, double or triple lines are counted only once.)
